TDK-Lambda recognizes that as a current customer of these products, you may require additional units until substitution testing is complete or for service spares. We are offering a last time buy opportunity as indicated above. Understand that these orders would be non-cancelable and non-returnable and cannot be counted towards future stock rotations.

Additional units may be available after the last time buy date. These would not have the CE mark and face export restrictions to Europe. This does not affect current stock. Please contact our office or technical support for additional information. 1-800-526-2324 or email powersolutions@us.tdk-lambda.com.
