

# PRODUCT CHANGE NOTIFICATION

## DIODES

## Additional Supplier for Terminal Plating Solder Material for Select TVS Diodes

### *Model CDDFN10, CDSOT23-6 and CDNBS08 Series*

Riverside, California – April 20, 2021 – In order to support fast growing demand, enhance continuity of supply and provide maximum flexibility to customers, effective August 1, 2021, Bourns will begin using additional suppliers for the terminal plating solder material used in the manufacturing of select Model CDDFN10, CDSOT23-6 and CDNBS08 Series TVS Diodes. A list of affected part numbers is included below.

The manufacturing process will remain the same. There is no change to the form, fit, function, quality or reliability of the product. The traceability is maintained through lot code and date code. The product marking and label are unchanged. Evaluation samples and reliability data are available upon request.
