

20th May 2020

Updated Product Marking (DC-DC BMP & Filters from BPS range)

Dear End-Customer or Sales Channel Partner,

We are writing to you because our records show that you have bought from the listed series within the last 2 years. This is a follow-on notification to PCN advising the addition of the Bel GongMing (GM), China manufacturing facility for board mounted products (BMP) from Bel Power Solutions (BPS) division.

As previously advised, this process is already underway. There will be parallel capacity with our current site in WingMing (BWM), China. See last page for products which are included in this notice.

We are planning and executing this process very carefully to minimise disruption to lead-times. This is an internal process for BPS and should not affect customer administration or POs.

However, if you have any questions or special requirements (qualification, audits or approvals), please do not hesitate to contact your Bel sales or customer service representative.

Different product marking on the product label for each manufacturing site: - (see photographs on next page)

- Revision starting with AA or AB:
BCM (Bel Contract Manufactured in Malaysia, no longer in production after 2018)
- Revision starting with BA or BB:
BWM (Bel owned manufacturing site in WingMing)
- Revision starts at “BC, BD, BE... :
GM (Bel owned manufacturing site in Gongming)

In addition, "G" will be added at the start of BMP Serial Numbers, made in GM

Product lines effected: -

Filters, POLs and Bricks from BPS (see next page for full series names)

We would also like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at becoming your power supply partner of choice in the future.

Yours faithfully

Dara Crowe
Product Manager
Bel Power Solutions
